**RE: Webster Street Road Rehabilitation (West Street to Highland Avenue)**

**Dear Resident:**

**The Department of Public Works (DPW) invites you to a second meeting to discuss the roadway rehabilitation of Webster Street between West Street and Highland Avenue. *The meeting is scheduled for Thursday, September 27, 2012 from 7:00 PM to 9:00 PM at the Eliot School Performance Center located at 135 Wellesley Avenue.***

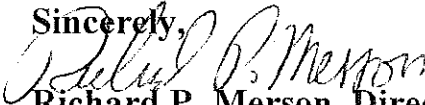

**The DPW is preparing to undertake the next phase of Webster Street beginning October, 2012. This is the third and final phase of the project which runs between Dedham Avenue and Highland Avenue. The prior two phases were completed over a four year period between 2007 and 2010.**

**The DPW will present the design plan in which a portion of the roadway is wider to provide on-street parking for users of Avery Field.**

**After receiving input from Citizens and Public Safety, the DPW determined that the overall roadway width would not be increased. Your participation is important and encouraged so that your comments and concerns can be heard and considered in the construction plan.**

**If you are unable to attend the meeting, please feel free to send questions or comments to [rhoyland@needhamma.gov](mailto:rhoyland@needhamma.gov)**

**Sincerely,**

  
**Richard P. Merson, Director  
Needham Public Works**
